Flu Vaccine Protects You & Your Community

The flu can be a serious illness, especially for older adults and those with underlying health conditions. An annual flu vaccine is the best way to reduce your risk of getting sick. Flu vaccine is recommended for everyone 6 months of age and older. Fairfax County Health Department and Neighborhood and Community Services are offering flu vaccine clinics at select senior centers for Fairfax residents 18 years of age and older. Take control of your health this season and get a flu vaccine.

Call for details.

*The Health Department is administering the quadrivalent influenza vaccine (not "high-dose.")
Pneumonia vaccine available for those 65 years of age and over. Must be requested when making your appointment.*
